

Interim Management and Support

NHS IMAS provides interim management and consultancy support across the NHS for organisations requiring short or medium-term support and our pool members are given the opportunity to learn, develop and progress. Our talent pools encourage growth, as well as building skills and experience of future NHS Leaders. We can offer our talent pool members a unique platform to access a variety of interim opportunities across all NHS organisations and specialities.

HOW WE CAN SUPPORT YOU

We welcome expressions of interest from expert and experienced senior NHS staff at Agenda for Change Band 8d and above, or those at Agenda for Change Band 8c who are looking to develop into a Band 8d role. NHS IMAS can help by matching staff to assignments that provide stretch opportunities, whilst ensuring they have the appropriate support and skills to carry out the role.

NHS IMAS receives requests for interim support from all areas across the NHS and we carefully match the client requirements to pool member's skills, experience and strengths. We use the information provided during the registration process to identify suitable candidates and we contact the pool member to discuss an assignment opportunity with them before we forward any information to the client.
